

This Privacy Policy is created to assist you, the users, in understanding how we collect, use, protect or otherwise process personal data collected in accordance with the Personal Data Protection Act (PDPA).

Personal Data refers to data about an user where he/she can be identified from a) that data directly, or b) that data, used alongside other relevant information regarding the user.

What personal data is collected?

Only appropriate data would be collected on registration such as name, date of birth and contact details such as contact number and email address. These data serve to help verify users' age and also allow us to better communicate with and serve the user.

How do we use the personal data?

The personal data collected may be used in the following manner:

- a. Verify identity
- b. Communicate with user
- c. To process payment or transactions

How do we protect your personal data?

All data are stored in our database only accessible by personnel with administrative rights to the database. Information would be encrypted and transferred via Secure Socket Layer(SSL) technology to our servers.

However, even as we do our utmost to ensure proper security of your data, we cannot guarantee the complete security of the data, due to the ever changing nature of technology and development of new attack vectors.

Third Party Disclosure

We do not sell, trade, or otherwise transfer to third parties your personal data unless we are provided consent by the user to either a) share the data or b) use the third party services.

Non-personally identifiable visitor information may be provided to other parties for marketing, advertising or other uses.

Data Retention/ Deletion

You may request to withdraw consent or request for us to remove your personal data from the system by contacting us via email at :

Nsk93@hotmail.com

Do note that the removal of personal data may render some services unavailable. We shall notify you of the inability to provide you with such services when you request to remove your personal data.
